

## **Endorsement for John Weaver**

**John Weaver is a Remarkable Person and a Fantastic Presenter.** I conducted an intensive training seminar and forum in Sedona, Arizona in February 2008. I invited John Weaver to provide my Saturday evening entertainment. What an inspirational gift and treat. Using his energy and enthusiasm he created an extraordinary entertainment presentation that had the audience in absolute amazement.

**John Has a Charismatic and Confident Way to Relate to the Audience.** He captivated a diverse audience and held the attention of everyone throughout the event! His care and consideration prior to, during, and after the event was outstanding. He truly made a connection with everyone in the audience. John's attention to detail was remarkable. His engaging style evoked a sense of togetherness for our group.

**John is Goal Oriented.** He did his homework. Prior to our event, John was committed to understanding the wants and needs of the audience and communicative about what his needs would be. He reached out to learn more about my program, the type of people with whom I was working, details such as seating arrangements and the names of people attending. As an event organizer, I was confident in John's ability to work interpedently, yet independently with our committee to achieve our goal of providing the forum participants with a pleasant and entertaining evening. He tailored his program and delivery to my audience and setting.

**John Delivered.** My goal was for conference participants to want to return next year. This is the bottom line for me. The evaluations of John's performance at our forum were of the highest regard. A few of the comments I received:

"I think John did a wonderful job as a magician. I think he is also super brilliant".

"I'd like to hear him speak again next year – at a session."

John is a talented and caring person. Entertaining with magic, I believe, is his calling in life and I highly recommend him for any audience.

Sincerely,
